# HY2000P

Part Number # 1105-3

## PORTABLE INVERTER GENERATOR WITH PARALLEL

Hyundai's 2000W inverter generator is a must-have machine to suit all recreational uses. Its unique inverter board controls both current and voltage for true sine wave power under any condition. The HY2000P can be used for sensitive, hand-held power tools, as well as complex electronic devices. Pair two of these lightweight units together with the parallel function for double the power. Portable and ultra-quiet, it's the best choice when you want to get back on the grid... anywhere.

Parallel cable combines unit outputs into a single 120V 26.6A RV outlet.

Second generator and parallel cable sold separately.

Dealer Info

<b>WATTS:</b>	2000W Peak Power, 1600W Running Power
<b>AMPS:</b>	13.3A
<b>STARTER:</b>	Manual Recoil
<b>ENGINE:</b>	79cc OHV Engine, 4500RPM Max.
<b>NOISE LEVEL:</b>	59dBA @ 100% Load, 50dBA @ 25% Load
<b>WORKING TEMP.:</b>	-15°C to 40°C
<b>FUEL TYPE:</b>	Ethanol Free Unleaded Gasoline
<b>FUEL CAPACITY:</b>	3.8 L / 1.0 Gal
<b>OUTLETS:</b>	Two 120V (5-20R), One 12V 5A DC, One Parallel Port
<b>RUNNING TIME:</b>	4.2 Hrs @ 100% Load, 11.5 Hrs @ 25% Load
<b>DIMENSIONS:</b>	510x280x445mm / 20x11x18in
<b>WEIGHT:</b>	20kg (44lbs)

# HY3200

## PORTABLE INVERTER GENERATOR

Designed for easy mobility, the HY3200 features remote starting and an integrated folding handle and wheel kit. The 23.3A twistlock outlet makes it perfect when out in an RV; it can power a 13,500 BTU air conditioner. The HY3200 controls both the current and voltage with dual wave technology to produce a true sine wave under any load condition. The HY3200 has a high output and low RPM providing power and protection, ensuring that you don't get caught off guard in an off-grid moment.
